

Work Package 2

What services work well?

EASY READ

We want to find out what health and care services help people stay well in their home.

We want to find out what helps families of people with learning disabilities to plan for when they can no longer support their family member to stay at home with them.

Questions

?

1. What do you think about it?

Good

Bad

Not sure

To do this we plan to

- Ask people who know about and run health services,

- Ask people who know about and run care services,

- Ask people who know about and run homes for people with learning disabilities,

- Ask people who know about planning care when people are near the end of their lives.

We will write a report about what we find out.

We will publish what we find out in social media, newspapers and journals.

We will write an Easy Read summary.
