

Work Package 3

Finding out about good services for older people with learning disabilities

EASY READ

We want to find out more about good services for older people with learning disabilities.

A team of researchers will spend time in four places where people live good lives.

The research team will include people with learning disabilities and family carers.

We will visit people and spend time with them to hear and see what is good about their support.

We will talk to staff and managers.

We will read information about each of the four places.

We will write a report about what we find out.

We will make a short film about what we find out.

We will write Easy Read summaries of what we find out.

You can read more about the big project on this link:
